

MAMIDI SAI NIKHIL

AI/ML Engineer · GenAI Engineer · Machine Learning Engineer · Python · Microsoft Azure

✉ mamidisainikhil2004@gmail.com | ☎ +91-9347702349 | linkedin.com/in/mamidi-sainikhil | Hyderabad, India

PROFESSIONAL SUMMARY

Final-year B.Tech (Artificial Intelligence) student specializing in AI/ML, Generative AI, and Large Language Models (LLMs). Hands-on experience building scalable AI systems using Retrieval-Augmented Generation (RAG), LangChain, and vector databases. Strong foundation in Natural Language Processing (NLP), Deep Learning, and MLOps, with experience in API development, model deployment, and cloud platforms (Microsoft Azure). Seeking entry-level roles as an **AI/ML Engineer**, **GenAI Engineer**.

TECHNICAL SKILLS

Programming Languages	Python, SQL, HTML, CSS
AI/ML & Deep Learning	TensorFlow, Scikit-learn, NumPy, Pandas, Machine Learning, Deep Learning
Generative AI & LLMs	OpenAI API, LangChain, Retrieval-Augmented Generation (RAG), ChromaDB, Vector Databases
Frameworks & APIs	FastAPI, REST APIs, API Development
Cloud & MLOps	Microsoft Azure, Model Deployment, CI/CD Pipelines, MLOps, Docker
Tools & Platforms	Git, GitHub, Streamlit, WordPress, Microsoft Power Apps, Overleaf, LaTeX

EXPERIENCE

AI/ML Project Developer	2024 – Present
Self-Driven / Academic Projects	
> Designed and deployed end-to-end AI/ML systems using Python, REST APIs, and Microsoft Azure.	
> Developed Generative AI applications leveraging LLMs, RAG pipelines, and vector databases.	
> Implemented scalable model deployment workflows and integrated APIs for production-grade systems.	

PROJECTS

Intelligent Agent System	2024
<i>Python · LangChain · LLMs · ChromaDB · Streamlit · FastAPI · REST APIs</i>	
> Engineered a ReAct-style LLM agent reducing manual planning effort by 60% .	
> Built semantic memory with ChromaDB for 500+ tasks.	
> Supported 10+ concurrent users with authentication system.	
> Integrated Telegram API and speech-to-text reducing input effort by 40% .	
> Deployed components using Docker and Git/GitHub.	
Technical Document Summariser	2024
<i>LangChain · ChromaDB · OpenAI API · Streamlit · NLP · RAG</i>	
> Built RAG pipeline for 200+ documents with 87% accuracy .	
> Designed UI for non-technical users.	
> Improved summary quality by 22% using prompt engineering.	

EDUCATION

Marwadi University	2022–2026
B.Tech — Computer Engineering (AI)	
CGPA: 7.78/10	
Narayana Jr. College	2020–2022
86.6%	
St. Anthony's Grammar School	2020
98.0%	

CERTIFICATIONS

AI-Data Scientist	Government of Telangana	2023
Database Programming with SQL	Oracle Academy	2024
Python for Data Science	IBM	2025

ACHIEVEMENTS

- > Led AI event with **400+ participants**.
- > District-level Volleyball player.
